WORLD FEDERATION FOR MEDICAL EDUCATION

- WFME – founded in 1972 - is the global organisation concerned with the education and training of medical students and medical doctors at all levels.
- WFME works for the global provision of competent medical and health-care-service personnel and strives for the highest scientific and ethical standards in medical education in cooperation with other organisations.
- WFME is an umbrella organisation for its six Regional Associations for Medical Education.
- WFME is a non-governmental organisation (NGO) in relation to WHO. It also has close collaboration with UNESCO, WMA, IFMSA and other partners.
- WFME's central office has since 1996 been located at the University of Copenhagen, Denmark, in collaboration with the University of Lund, Sweden. Together, the two faculties and WFME have established the 'Copenhagen-Lund University Centre for International Medical Education' (CLUCIME).
- The new WFME brochure can be found on http://www.wfme.org.
